

Officers Installed by Carpenters' Union.

At their last regular meeting the following officers were installed by Chapter 1229 of the local Union of the United Brotherhood of Carpenters and Joiners: President, J. C. Hoyster, Vice-president, W. T. Shuman, Recording secy, H. V. Johnson, Financial secretary, E. J. Proctor, Treasurer, N. V. B. Ross, Conductor, J. R. Ray, Warden A. J. Proctor, Trustees, B. H. Olliff, W. M. Proctor, and C. H. Wilson, auditors, J. F. Atkins, T. A. Hendricks, and J. S. Brown. The order is doing good work and has shown some remarkable growth since its organization a short time ago.

The Right Name
Mr. August Sherpe, the popular and well known of Port Madison, Pa., says: "Mr. King's New Life pills are rightly named; they act more agreeably, do more good and make one feel better than any other laxative." Guaranteed to cure biliousness and constipation. 25c at W. H. Ellis' drug store.

County Commissioners of

Emanuel County Here

The county school commission of Emanuel county were here Thursday looking over the roads of this county and inspecting the new road engine recently purchased by the county. In the morning they were taken out by Ordinary Moore and shown the winding of the machine. The roads of this county are fast being put in good condition and the report of our neighbors to the west and they sent the delegation down to examine the system. The commissioners from the sister county were well pleased at the work of the machine and expressed themselves as highly gratified with the work being done on the roads of this county.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably induce it. Children like it because the taste is so pleasant. Contains honey and tar. It is the original laxative cough syrup and is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms to the national pure food and drug law. Sold by W. H. Ellis.

Holloway-Woodcock.

Exactly at 1 o'clock, as the sun shone with a flood of light over forest and field, making the day one of ideal beauty, blending winter and summer in a union of perfect glory, Miss Annie Holloway and Mr. Thomas Woodcock, in the presence of a few friends were united in marriage, Thursday, by Rev. T. J. Cobb, at the residence of Mr. Perry Barnes.

The ceremony was short but impressive and beautiful, as are all like marriage rites of that church. The bride is one of the most charming, attractive and accomplished young women in the county. The groom is well known in the county and enjoys a large friendship among the most prominent people of the county. Both of the young people are popular and have a wide circle of friends, who will hear of the marriage with the greatest interest.

The groom is to be congratulated in having won so fair a lady, and the handsome bride is to be envied in winning the heart of a man held in such universal esteem by all those who know him.

The happy young bridal couple spent part of their honeymoon here after the ceremony and were the recipients of a great many favors of a social nature during their stay in the city. All was done possible to make the time pass pleasantly. In the evening they were treated to a serenade by some of their admirers and it is needless to say that they enjoyed the fun quite as much as those engaged in it. Best wishes.

How to Cure Chills.
"To enjoy freedom from chills," writes John Kemp, East Otisfield, Me., "I apply Chamberlain's Arsenic Salve. Have also used it for all rheum with excellent results." Guaranteed to cure fever, sore, indigestion, piles, burns, wounds, frost bites and skin diseases. Sold by W. H. Ellis' drug store.

Levees Break on Mississippi River.

New Orleans, Jan. 23.—There are five breaks in the Mississippi river levees, about seventy-five miles below here, ranging in width from ten to one hundred feet. Considerable property damage is threatened.

Louisville, Ky., Jan. 23.—The water in the Ohio fell something more than a foot after midnight, the gauge at 3 a. m. showing 402. in the canal.

Nearly every person who is subject to attacks from the stomach suffers from a morbid dread of a dietetic treatment for relief, that is three-fourths starvation and one-fourth toast and milk. On the other hand you can eat as you please and digest the food by the aid of a good digestant, thus giving the first stomach equally as much rest. Eat what please and take a little Kodol. Digestion after your meals. It digests what you eat. Sold by W. H. Ellis.

NOTICE.
Strayed from my place about two weeks ago ten head of goats; all grown and all unmarked; some of them but-headed. The finder will greatly oblige me.
D. T. Beasley,
Statesboro, Route No. 1.

Gooding.

Miss Ella Beach has opened a school in the academy near the home of Mr. Solomon Atkins, the attendance being thirty. This school is out of a school district, and will, of course, be supported by private means. It has bright prospects for a successful term.

Tyson Grove Academy.

There will be a box supper given at the Tyson Grove academy, Friday, Feb. 1, 1907, beginning at 6:30 o'clock, p. m., for the purpose of supplementing the library of said school, etc. The public is invited to attend.

Statesboro, Ga., Jan. 24, 1907.
J. M. Blackley,
J. L. Brannen,
Teachers.

How to Avoid Pneumonia.
You can avoid pneumonia and other serious from a cold by taking Foley's Honey and Lar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package.
W. H. Ellis.

NOTICE.
All gin accounts due us, if not settled at once, will be turned over to our attorney for collection.
Brooklet Ginney,
3t R. H. Warnock, Secy.

An Insidious Danger.
One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes.
W. H. Ellis.

Recovered From Flames.
The Tattall Journal, which was destroyed by fire last fall, has been placed on its feet again and is now appearing in all home print, as it did before the flames destroyed the plant.

We congratulate Editor Folsom on his splendid energy and perseverance in getting the plant re-established. He is giving the people of his section a good paper.

Clear up the complexion, cleanse the liver and tone the system. You can best do this by a dose or two of DeWitt's Little Early Risers. Safe, reliable little pills with a reputation. The pills that every one knows. Recommended by W. H. Ellis.

EARM FOR RENT

I have a good two horse farm that I want to rent out on share crop basis. Will give good man a good chance.

J. L. Caruthers,
Statesboro, Ga.

Disturbed the Congregation.
The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar.
W. H. Ellis.

Doings In The Local Field

WHEN YOU THINK OF HARDWARE, THINK OF RAINES.

GOV. TERRELL GAME SUNDAY.

Board of Trustees Held Meeting Monday—Important Matters Passed Upon by Committee.

Governor Joseph M. Terrell arrived in the city, Sunday afternoon to attend the meeting of the board of trustees of the First district agricultural college, on Monday. The other members of the board came in Monday. The meeting was not well attended as it was thought that it would be. Several members of the board were not present, for some reason, but enough were present to constitute a quorum, and the business of the body was taken up and carried out.

During his stay in the city, Governor Terrell was the guest of the Jaekel hotel, where many courtesies were shown the distinguished citizen and chief executive of the state.

In the morning the committee went into executive session. Many perplexing details were disposed of. A principal was elected. The position was tendered to Prof. J. Walter Hendricks, of Douglas, an old Bullock county boy. The other members of the faculty will be elected later.

Work on the site and the grounds will begin at once.

The meeting was, in many respects, an important one. Much work will develop upon the chairman of the executive committee, but he will be ably assisted by an advisory committee, who will give valuable help and suggestions.

Governor Terrell was favorably impressed with our city, and says it is the best town he has visited in all of Wiregrass Georgia. The future of Statesboro is bright, he thinks, and no one thing will do quite as much for the city as the agricultural college.

In the afternoon Dr. Donahoo took the Governor and others of the committee driving in his fine automobile. This was very much appreciated by all those going.

Among those attending the meeting were: Gov. J. M. Terrell, Harlan Blackley, Atlanta; Col. J. R. Anderson, Savannah; Messrs. M. E. Carter, Pembroke; J. K. Wells, Guyton; J. H. Evans, Halcynodale. Major Wilkins, of Waynesboro, and Mr. S. W. Palmer, of Millen, were represented by proxies.

Everybody Invited.
The Stock-taking Sale at E. C. Oliver's, which has been attracting so many of our people for the past week, will last until February 2d. Remember, the sale positively will close February 2d.

The bargains offered this week certainly ought to attract every shopper. Bargains are to be had in every line.

Clothing—especially shoes, dry goods and hats; in fact, every article in the store—goes at a cut price.

Mr. Oliver is a live and up-to-date merchant, and he believes in closing up this season's goods before getting in the spring goods, and the cut prices throughout his store will move the stock.

Everybody is invited to visit his store before February 2d.

Call for Meeting of Teachers.
All white teachers are requested to meet at Statesboro institute, Saturday, Feb. 2d, 1907, at 10 o'clock, a. m.
J. E. Brannen, C. S. C.

The three main buildings was awarded to Nicholas Itner, of Atlanta, for about \$47,000. Others bidding, were: McKenzie, of Augusta, and A. J. Franklin, the only local bidder. The highest bid was \$55,000, and the lowest, the one to secure the contract, was \$47,000, as above stated. The three buildings include an academic building and two dormitories; one each for boys and girls. The contract stipulates that the buildings are to be turned over to the committee by September 1st, and the college will be ready to open by the 15th of September. The buildings are to be fitted up with facilities for steam heating. They will be modern in every sense of the word.

An advisory committee was appointed to confer with the chairman of the executive committee in the selection of the exact site for the building, the improvements that are to be made and other things that will come up in getting the school established.

In the afternoon the committee went into executive session. Many perplexing details were disposed of. A principal was elected. The position was tendered to Prof. J. Walter Hendricks, of Douglas, an old Bullock county boy. The other members of the faculty will be elected later.

Work on the site and the grounds will begin at once.

THE BEAUTY SPOT OF STATESBORO!

"OLLIFF HEIGHTS:" This beautiful sub-division is located in the northern part of Statesboro and it is the prettiest part of the town. The Deen Realty and Improvement Company, of Waycross, Ga., having secured the contract to develop this tract of land has signed a contract to make this the prettiest spot in all Statesboro, and if you will take the time to go out and see what is really on in your town and county you will feel that Statesboro is the only town in the state. We have an army of men at work grading streets and cleaning up and polishing this spot so when we turn it over to the parties that own this tract we can and will say that we have done prettiest work of the kind that we have ever undertaken to do.

Now we want you to come out and see for yourself just what all this means for your town. We want you to see something that you have never seen before. We want you to see a sub-division that will be so pretty that you will want to buy every lot in it. We want you to see a sub-division where every lot will be worth just fifty per cent more next year than it is worth now.

And think, this is the only place in Statesboro where the restrictions protect you and your neighbor unless some other company copies after us. On Olliff Heights will be the only place in Statesboro that will go down generation after generation where a negro can never buy a lot; where you or any one else can never build a house to cost less than \$1,000 and where you must build 15 ft. from prop. line

Now you can picture for yourself just what this means. Just think how pretty this place is going to look, and when it is built up then you will see just what all these restrictions meant. You will see the good that it did, and in the spring when we go through developing this property you will have a chance to buy a few of these beautiful lots.

TUESDAYS AND FRIDAYS.
By the Statesboro News Publishing Co.

In the opinion of the National Co-Operator, if the young men would devote as much of their time to money making as they do to love making there would be more Rockefeller in the world.

Says the Philadelphia Record: Secretary Shaw has had his ear to the ground listening to the roar of prosperity. The sound of it all, like the tramping of some tens of millions of runaway horses, has scared him white, and he wants people to begin to pray. "Get down on your knees," says he, "and pray God to save this country from its prosperity." Mr. Shaw forgets that John D. and other able gentlemen are on guard to see that prosperity doesn't break the dam and drown us all.

The economists and the lawyers, the statesmen, philanthropists and sociologists have spoken at the meeting of the National Civic Federation; and much wisdom was dropped. A frank and cynical person, Mr. N. W. Meagher, expressed this unsympathetic opinion: The reason we rail against John D. Rockefeller is because he has succeeded. All the world is a confidence game, and we are only players. I have come to learn that and to learn that Mr. Rockefeller has played the game only according to its rules, and that we are sure because he has been the most successful.

Last fall the President of the United States issued an order directing that the Eight-Hour law be extended to apply to all public work under the supervision of any department of the Government. This law had already been applied in a number of departments. The Commissioner of Labor recently made a report to the President, concluding as follows: "I might add here that I found one very noticeable effect has already been produced in this matter of the Eight-Hour law. Contractors fully realize now that the law is going to be enforced with earnestness and they no longer dismiss it as a matter of no consequence. They probably like the law less than ever, but their attitude now is to live rapidly changing into one of becoming respect for the statute."

Among a number of unpublished manuscripts left by the philosopher Leibnitz is a mottoes doctum in which the great thinker proclaims his faith in the power of science to better immeasurably the conditions of human life. The happiness of humanity, he affirms, will develop with the progress of science. Happiness, according to his view, depends on three things—perfection of the soul, health of the body, and the commodities of life. Perfection of the soul is obtained through science, which teaches us what we are and what we ought to do, and is the basis of rational ethics. Health of the body also is obtained through science, for medicine and medical skill, as well as prevention of disease, depend on the knowledge of nature. Finally, the commodities of life are furnished by science, which evolves the useful arts and makes them independent of, if not master over, nature.

The scheme for teaching the British soldier a trade, which is to be put into operation, is eminently practical, and it carried out thoroughly it will go a long way toward solving the problem of employment for ex-soldiers. The regulations give directions for the soldier whilst serving with the colors to be taught a trade, but the rule is a dead letter, and there is a danger of the scheme drawn up by Sir Edward Ward's committee being taken up half-heartedly. In this case it would assuredly be a failure. A circular letter has been sent to commanding officers drawing their attention to what can be done to provide soldiers with technical training during their color service, and the carrying out of the instructions therein will, no doubt, be strictly insisted upon. A very practical list of trades is submitted, and officers are instructed to study the question of what trades can be most advantageously learned in their command and also to make every effort to induce men to interest themselves in their future prospects. All of the trades enumerated would prove of the greatest utility to the time-served soldier; that is, if he is made proficient during his service with the colors.

REBUKE IS COMING

For Governor of Jamaica from British Government.

EXPLANATION DEMANDED

Of Action in Ordering Americans from Kingston—Full Text of Governor's Sarcastic Letter to Rear Admiral Davis.

From official sources in Washington, it is learned that no attention will be paid by this government to the action of Governor Swettenham of Jamaica, in asking Admiral Davis to withdraw his forces from Kingston. It is held that the act of the governor is that of a single individual for which the British government is in no manner to be held responsible.

A London special says: The colonial office is still without explanation from Sir Alexander Swettenham, governor of Jamaica, of the situation which led to the withdrawal of Rear Admiral Davis' warships from Kingston. The silence, although irritating to the government, is construed as a good sign that this much regretted affair is capable of amicable adjustment, and will not lead to any disturbance of the friendly relations between the United States and Great Britain.

It is supposed that if Governor Swettenham had any reasonable justification for his extraordinary letter to Rear Admiral Davis he would not have been in placing his government in possession of the facts, therefore his silence is regarded as a confession of the weakness of his case, or an evidence of compunction at having adopted an inadvisable course.

Governor Swettenham's reply to Rear Admiral Davis' letter was as follows: "Dear Admiral: Thanks very much for your letter, your kind call and all the assistance given or offered us. While I most heartily appreciate the very generous offers of assistance, I feel it my duty to ask you to reconsider the working party and all parties which your kindness prompted you to land.

"If in consideration of the American vice consuls' assiduous attentions to his family at his country house the American consulate means guarding in your opinion, although he was present and it was not guarded an hour ago, I have no objection to your detaching a force for the sole purpose of guarding, but the party must have no fire arms and nothing more offensive than clubs or staves for this function. I found your working party this morning helping Mr. Crosswell clean his store. Crosswell was delighted that the work was done without cost. If your excellency should remain long enough I am sure almost all of the private owners would be glad of the services of the navy to save expense.

"It is no longer a question of humanity, all the dead and living are the work of giving them burial is merely one of convenience.

"I would be glad to accept delivery of the safe which it is alleged thieves had possession of. The American vice consul, Mr. Crosswell, has a store close to the sentry post and the officer of the post professes ignorance of the incident.

"I believe the police surveillance of the city is adequate for the protection of private property. I may remind your excellency that not long ago it was discovered that thieves had lodged in and pillaged—the . . . of some New York millionaire during his absence in the summer; but this would not have justified a British admiral landing an armed party and assisting the New York police.

"I have the honor to be, with profound gratitude and the highest respect.

"Your obedient servant,
"ALEXANDER SWETTENHAM,
"Governor."

HAND PRINTERS MUST GO.
So Says Public Printer Stephens in an Order Just Issued.

Public Printer STEPHENS has issued a general order in which he says the duties of hand composition are fast coming to a close. The order was issued to call attention to the fact that printing office's night school instruction on typesetting machine. The instruction will be free, but no pay given for the work accomplished. In regard to instruction in the force of hand printers, those who can operate the machines will be given preference.

FORAKER TO ACT LAWYER

For Negro Soldiers in Investigation of Brownsville.

Testimony concerning the affair at Brownsville, Texas, will be taken by the senate committee on military affairs beginning February 4. The full committee will sit at that time in Washington. Senators who will be at once, Senator Foraker will conduct the case for the discharged soldiers.

ROUGH DAY IN SENATE.

Apologizes—President Wins Out in the Brownsville Affair.

Whipped Into Line by the Democratic Minority, led by Senator Blackburn, the republicans of the senate Monday morning adopted a modified resolution of the Brownsville incident. The resolution, which was offered by Mr. Foraker, does not question the "legality or justice of any act of the president in connection with the discharge of the three companies of negro soldiers."

The modified resolution was acceptable to the democrats and likewise acceptable to the president.

The news that the president was telling his friends that he would regard a vote to table the Blackburn amendment or a vote against it as a vote against himself, caused the less courageous of his party's supporters in the senate a new stiffening of the backbone.

An almost overshadowing incident of the day was Senator Tillman's speech in reply to Senator Blackburn, who was supported by Spenser of Wisconsin and Carmack of Tennessee, the parliamentary maneuvers, and party strategy, growing out of the democratic efforts to force acceptance of the Blackburn resolution endorsing the president.

Senator Tillman ran the gamut of oratorical efforts in his spectacular address. He made incursions into every field of fun and fury. He ridiculed his colleagues, he defended himself for the unnamed crime; he scolded his opponents, he blistered his enemies, he pleaded for a solution of the south's tragic problem, and for some inspired plan that would meet and settle the irreconcilable conflict.

The speech, as a whole, aroused the ire of the senate, and ended in the South Carolina making an apology and asking that the portion of his remarks holding up to ridicule his colleagues, be expunged from the record. If he had not done so, the senate would have ordered the remarks omitted. Senator Tillman's introduction was undignified, illadvised and his antics savored of modern burlesque minstrelsy, but when he launched into a defense of the south, and his section's determination to defend its race heritage and its Caucasian racial heritage, he was powerful, convincing, and rendered dignified by the very force of his conviction.

Senator Tillman fully justified his promise that he would add to the gallery of nations and to the amusement of his brethren. That little freak of fancy cost him dearly. It cost him the support of the southern states, and the support of the most artistic and scholarly of rebukes heard this year in the senate. It provoked Bacon of Georgia to declare that the gentleman from South Carolina made the United States a laughing stock on the air of a vandeville playhouse.

Several features of the spectacular were missing from the proceedings.

LIMITED TRAIN DESTROYED.

No. 86, Atlantic Coast Line, Crashes Into Freight and Wreck Is Burned. News was received in Charleston, S. C., Monday night of the wreck and destruction of northbound special New York and Florida vestibule train No. 86, Atlantic Coast Line, at 8:29 o'clock at Yemassee, a junction point 59 miles from Charleston. The train went into an open switch and crashed into the engine of a freight train on the siding. Engineer, Robert P. Brown, S. C., on train No. 18, was killed and Engineer Horton and three train hands of the freight were injured. The train, composed of a baggage car and seven Pullmans, caught fire at once, and all except one car were burned. It was said that there were only a few passengers north bound on board, and only one was hurt.

COTTON EXCHANGE SCARED UP.

Members Decide to Change the By-Laws to Escape Prosecution.

The members of the New York cotton exchange Monday approved several amendments to the by-laws of the exchange as proposed by the government. The amendments were to be held for balloting on the amendments.

GIGANTIC NOTE ISSUE

Is Arranged by the Southern Railway Through J. P. Morgan & Co.

A New York special says: The Southern Railway company has arranged to issue through J. P. Morgan & Co., \$15,000,000 three-year 5 percent notes, according to an announcement made Monday.

AFTER NAVAL STORES MEN.

Wholesale Prosecutions on Taps As Result of Combination.

A Savannah special dispatch says: Wholesale prosecutions of the alleged naval stores trust are soon to be launched if indictments that are to be sought in the federal court in the Washington district of Georgia and in the New York district are returned by the respective grand juries.

Georgia Cullings

Curtailed Items of Interest Gathered at Random.

Atlanta's Expenses for a Year. The annual report of Thomas J. Peeples, city treasurer of Atlanta, has been completed, and shows that the total expenditures of all the city departments for the year 1906 was \$1,790,245.80.

New Arrivals at Atlanta Pen. A coach with twenty-six convicts and fourteen guarding officers, the entire party in charge of Chief Deputy United States Marshal Huwes, of Cincinnati, all from the state penitentiary at Columbus, Ohio, reached Atlanta Saturday afternoon over the Southern railway. With the new arrival there are now 568 convicts at the federal prison.

Veteran Meets Tragic Death. While crossing the street car tracks on East Mitchell street, in front of the state capitol, at Atlanta, with the intention of attending the Lee exercises, A. C. Pritchard, a Confederate veteran, was knocked down by a car of the Georgia Railway and Electric Company. He was carried to the Gray hospital, and died a few moments after reaching that institution.

Minor Can Act as Agent. Delivery of liquor to a minor who is the undisputed agent of another is not illegal, according to the supreme court, reversing Judge Thomas, of the city court of St. Louis, in the case of Harley vs. the State. If the person furnishes the money and the minor actually delivers the whiskey to him, without consuming or parting with any of it, the seller is not guilty of selling or furnishing liquor to a minor.

Atlanta Work Goes to Stannard. The assistant secretary of the treasury at Washington has announced that the contract for the construction of the foundations for Atlanta's new post-office and court house has been let to Ambrose B. Stannard of New York.

Mr. Stannard's bid was \$14,546, the work to be finished by September 1, the specified time. He was the lowest of eleven bidders. The highest bid, one made by an Atlanta contractor, was \$28,720.

Jail Delivery at Americus. Americus had a wholesale jail delivery late Friday night when eight convicts escaped their way to liberty and escaped. Evidently a key was provided by which they unlocked the massive door guarding the rows of steel cages. Three other prisoners in the same cells declined to leave and the escape was a complete failure.

Two of the escaping prisoners were under long sentences for felony, while six were convicted of misdemeanors.

Dargan Urge for the Job. A sensational addition to the litigation which has been pending for some time, regarding the affairs of the Atlanta-Birmingham Fire Insurance Company, was the filing, a few days ago, in the United States court, at Atlanta, of an intervention, asking for the removal of J. T. Dargan as one of the receivers of the company. The allegations made are that Dargan is not a fit person to discharge the duties of the receivership, and the prayer is that he be removed.

Justice Long Delayed. The life sentence of R. A. Keith, an Atlanta man, who shot and killed Jesse Wall, who he discovered coming from the Keith home, has been commuted by the state prison commission to present service which has five years. The case was one of the most notable in the history of Georgia, and the controversy was fought on the ground that it was a case of much interest from the time of the crime until Keith was convicted in 1901. It was brought out at the hearing that the prisoner's eyesight has failed and that his health is broken and the commission judged that Keith was within the unwritten law in killing Wall.

To Hold Immigration Meeting. An important meeting of the executive committee of the Georgia Immigration Association was held in Atlanta the past week, when many matters of vital concern to the best interests of the state were taken up.

The members of the committee reported that the greatest interest was being taken by the most prominent men in the state.

It was decided to hold a big state convention in Macon on February 19, and the time experts of recognized authority on immigration from both the state and federal governments will be asked to present and speak.

Big Power Plant for Americus. The reproduction of the plan by William A. Dodson, and associates, including the firm of LeRoy Davidson & Co., and several Philadelphia capitalists for electric franchises in America, and just recently by the Georgia Power company, a massive investment of capital in this city. Two hundred thousand dollars in all probability will be expended in the installation of electric power plant of sufficient capacity to light the city, pump the water supply into mains and down and operate an electric street railway system.

(Central Standard Time.)
J. RANDOLPH ANDERSON, President.
D. N. BACOT, Superintendent.

The Zettler House

883 4th St. MACON, GA.

Mrs. A. L. Zettler, Proprietress.
Best \$1.00 per day House in the city. Good rooms and good table board. When in Macon give us a call

be expended in the installation of electric power plant of sufficient capacity to light the city, pump the water supply into mains and down and operate an electric street railway system.

CREOSOTING PLANT BURNED. Spectacular Three-Acre Blaze Witnessed at Norfolk, Va. The most spectacular fire in the history of Norfolk, Va., occurred Sunday, when a spark from a locomotive set fire to grass near the plant of the Atlantic Creosoting Company, and, fanned by a forty-mile wind, the flames extended to the great lumber piles and oil tanks of the company, causing a loss of \$60,000. Seventy-five thousand gallons of creosoting fluid in the tanks exploded, and 2,500 barrels of the oil were consumed, together with several hundred thousand feet of creosoted timber.

Car Manufacturing Plant Burned. One of Savannah's most prosperous industries was burned a few days ago when the entire plant of the South Atlantic Car and Manufacturing Company was destroyed. Everything was burned, including the great amount of stock that was stored there. The works employed 350 men and there were no orders enough ahead to keep the shops going for several months.

A contract to furnish the Panama canal with 300 cars was signed a few months ago, and the material for most of these was on hand and it is lost. It is stated that the loss is fully \$300,000, partly insured.

President Dargan stated that the plant would be rebuilt in more modern manner and with largely increased capacity.

Will Cost the State \$35,000. To carry out the new regulations of the war department relative to raising and training the national guard from 40 to 50 men, while unsatisfactory of somewhat different interpretation from the first news, will require an appropriation of about \$35,000 from the next general assembly.

Argued minimum enlistment of 38 men is not required, according to the views of Assistant Adjutant General A. J. Scott, but it means that each company in infantry and cavalry must have in their armories equipment for that number.

This means that Georgia will have a heavy additional expense.

Local Receiver for Colony. Following the recent announcement that a receiver had been appointed in Indianapolis for P. H. Fitzgerald's Georgia Colony Company, and incidentally for St. George, in Charlton county, near the Florida line, it developed that a receiver had already been appointed in this state for the colony, the appointment having been made in Charlton county.

Jesse W. Vickery, clerk of the superior court of Charlton county, is the receiver who was appointed by the court there.

It is alleged that P. H. Fitzgerald, founder of the town of Fitzgerald, owns the land upon which St. George is located. This land consists of 15,000 acres, of which there are 1,000 town lots. It is alleged also that John H. Fitzgerald, brother to the other, employed Welsh and Wilkinson, a real estate firm of St. George, to sell the property. It is claimed that \$50,000 has been misappropriated, and the receiver was sought on the ground that it was true property, and could not be sold by Fitzgerald.

TELEGRAM TO ROOSEVELT

Sent by the Farmers' Union in Annual Session at Atlanta.

Hon. Theodore Roosevelt, President, Washington, D. C.: As the national president of the Farmers' Union of America, composed of one million farmers of the south and west, which are in national meeting in Atlanta, I beg to notify you the convention did tonight by a rising vote endorse your action in discharging the soldiers involved in the Brownsville riot. This action on the part of 3,500 people on motion of Hon. Thomas R. Watson while in the course of a speech in which he referred to your action.

C. S. BARRETT.

You cannot keep your eyes on your watch and your heart on your work.

80LONS VOTE RAISE

National Legislators Give Themselves More Pay.

TWENTY-ONE VOTED NAY

Henceforth Senators and Representatives Will Draw \$7,500 Per Year and Vice President, Speaker and Cabinet Members \$12,000.

A Washington special says: The senate Wednesday passed the house amendment to the legislative appropriation bill, increasing the salaries of the vice president, speaker, members of the cabinet and members and senators by a vote of 53 to 21. The bill increases the salaries of senators and members to \$7,500 and of the other officers mentioned to \$12,000.

In the course of the debate the veteran Senator Pettus of Alabama paid a frank and sincere tribute to his colleague, Senator Morgan, as an illustration of the fact that a man who entered the public service, sacrificing his personal business and personal interests and his outside pursuits to devote his time and talents and energy to the government in legislative halls deserved some recognition.

He said Senator Morgan had served thirty years, that he had not accumulated a fortune in that time, but that the people of Alabama were proud of him just the same and loved him because he had not grown rich in the United States senate. He thought the increase asked was small enough, in view of the \$12,000 to \$20,000 salary income, which Senator Morgan had sacrificed for so many years in order to remain in the senate. The incident was a unique feature of the day's session.

Senator Morgan of Mississippi voted for the measure and said if he had \$750,000,000 per year to disburse he would not, as a business proposition, give absolute power to disburse it into the hands of men whose services were only worth \$5,000 a year.

A number of speeches for and against the measure were made, the principal ones being delivered by Senator Berry of Arkansas, who opposed it, and Senator Tillman, who favored its passage.

Senator Tillman, saying that he had just been elected to six more years of service, would vote for the increase, not because he would get more money, but because he believed it was right. He would rather have voted for it last year before his reelection. If fault was found he was willing to resign.

The vote in detail was as follows: Yeas—Aldrich, Allen, Ankeny, Benson, Beveridge, Brandegee, Bulkeley, Burton, Burrows, Carter, Clark of Montana, Clark of Wyoming, Clarke of Arkansas, Crane, Cullum, Daniel, Dick, Dillingham, Dubois, Dupont, Flint, Foraker, Foster, Fry, Fulton, Gallinger, Hale, Hepburn, Hopkins, Kirtland, Knox, Ladd, Lodge, McCumber, McHenry, Millard, Money, Newlands, Nixon, Overman, Penrose, Pettus, Piles, Scott, Simmons, Smith, Spooner, Sutherland, Tillman, Teller, Warner and Warren—53.

Nays—Bacon, Berry, Blackburn, Burkett, Carmack, Clapp, Clay, Culherson, Frazier, Hansborough, Hemenway, LaFollette, McCreary, Mallory, Nelson, Patterson, Perkins, Rayner, Stone, Tallaferra and Whaley—21.

SWETTENHAM INCIDENT ENDS.

Uncle Sam Washes His Hands of the Whole Jamaican Matter.

The president has finally dismissed the incident connected with the refusal by Governor Swettenham of Jamaica to give an answer to the question of whether or not they approve the constitutionality and legality of the president's action in discharging the three companies of the twenty-fifth infantry negro troops. Representative Sims of Tennessee has introduced a resolution endorsing the president's action. The Texas representatives will take it up and seek to get a vote on it.

NO MORE PENSION AGENCIES.

Payments to Veterans to Be Centralized in Washington.

The house Thursday voted to abolish all the pension agencies throughout the country, eighteen in number, and centralize the payment of pensions in the city of Washington. This action was taken on the pension appropriation bill after split opposition on the part of those having pension agencies in their states.

The pension bill carrying \$138,000,000 in round numbers, was passed.

BIDS WILL DECIDE MATERIAL

In Question of Marble or Granite in Atlanta Public Building.

Superior Architect Taylor of the treasury department at Washington says that the use of granite or marble in the construction of Atlanta's post-office and public building will depend upon the bids. The whole cost of construction must come under the million dollar appropriation.

APPROPRIATION CUT DOWN.

Alabama Solons Reconsider \$400,000 School Measure.

The Alabama house reconsidered the bill to appropriate \$400,000 to the public schools of the state, and made the amount \$390,000. Speaker Martin left the chamber and made the fight for the reduction, at the instance of the governor, who would not approve over that amount.

TIED WIFE IN A CHAIR

And When He Returned With Doctor She Was Dead.

Mrs. Cris Young, an aged woman, died suddenly at her home near Dawsonville, Ga. She became sick and her husband, fearing she might fall out of her chair while he went for assistance, tied her to the chair. When he got back she was dead.

THIRTY-TWO MILLIONS

Have Been Spent So Far in Canal Work, Says Retiring Chairman Shouts in Banquet Speech.

Theodore P. Shonts, who on Wednesday resigned the chairmanship of the isthmian canal commission, was the guest of honor in Kansas City on Thursday evening at the monthly dinner of the Knife and Fork Club, and delivered an interesting address touching the Panama canal.

"The creative period," declared Mr. Shonts, "has come to an end, and the period of active construction has begun. As to the manner in which the creative task has been performed we are content to let the facts speak for themselves."

In closing Mr. Shonts quoted as follows from President Roosevelt's message, written after the chief executive returned from the isthmus: "The wisdom of the canal management has been shown in nothing more clearly than in the way in which the foundations have been laid."

Mr. Shonts declared that his resignation of the chairmanship had resulted from any disagreement with President Roosevelt, or any member of the commission, and declared that the best of relations existed between himself and all his canal associates.

Regarding the necessary preliminary work he said: "In this preliminary work, we have spent down to January 1, 1907, about \$2,000,000. Of this amount \$1,500,000 have been spent in government and sanitation; about \$700,000 in construction of quarters and other buildings, docks, wharves, railway enlargements, water works and sewers in the zone, and in engineering work, and about \$12,000,000 in permanent plants; over \$4,500,000 in miscellaneous materials and supplies, and over \$1,500,000 in the construction of sewers and water works and street paving and improvements in Panama and Colon. The last named will be refunded ultimately to the government."

"We have driven yellow fever permanently from the isthmus. That is our greatest achievement. For four months there has not been a single case of this terror of the tropics. The stegomyia mosquito of which the extreme period of life is three months, and which is the bearer of the yellow fever germ, has been almost wholly driven out of business."

"So far as general health conditions are concerned I can give you no stronger evidence of their favorable character than by stating the fact that among about 6,000 who have been sent to the isthmus, there was for three months in the rainy season of last year—August, September and October—not a single death from disease."

Continuing in his detailing of accomplishments, he said: "As I said to you in the opening part of my address, the work of actual excavation was restricted during the creative period to merely preparatory lines. Still, something has been done in the direction of making the 'dirt fly.' During the fiscal year ending with June last, 1,500,000 cubic yards were taken from the canal prism against 742,000 yards removed during the previous year."

"Altogether, the surface in the Colaba cut has been brought down 65 feet below the level left by the French. A large amount of the excavated material has been used in filling for railroad yards and double-tracking of the Panama railroad."

The engine and tender crushed the combination, making a mass of wreckage under which the passengers in the car were wedged. Seats were whirled through the roof and it was here that the dead were buried, many of them beyond recognition.

The note of the collision awakened nearly every person in Fowler. Among the first persons to reach the wreck were County Recorder Jay Gillespie and County Auditor Lemuel Shipman. These men secured hand saws and before daylight had reached the coaches began the work of rescue.

Coroner Conkey superintended the removal of the bodies of the identified dead and took charge of the bodies. Saturday afternoon enough fragments to make eight bodies had been taken out.

The collision occurred 100 feet from a switch near Fowler. The passenger train, in the heavy fog, ran by a telegraphic block signal to stop. The red light was not obeyed.

The engine and tender crushed the combination, making a mass of wreckage under which the passengers in the car were wedged. Seats were whirled through the roof and it was here that the dead were buried, many of them beyond recognition.

A SANITARIUM FOR STATESBORO.

Its Aim and Some of the Benefits to
be Derived--To be owned by a
Stock Company--Work
to Begin at Once.

Statesboro is soon to have a sanitarium. This is now practically assured, and work will begin on it within the next two weeks. Men of prominence and means are behind the movement, and it will be carried to a successful end.

The promoters are well aware of the great benefits to the city and county of such an institution, and when it is remembered that they have the experience and financial backing and the support of the citizens of the whole county, the sanitarium is sure to be built very soon.

Statesboro has long been in need of such an institution. It will mean as much for the city and county as any other one thing. It will be especially valuable now that we have secured the agricultural college of this district. It is in keeping with the growth of the city in other directions and another proof positive that Statesboro is developing at an unprecedented rate. The benefits to be derived from a sanitarium are so many and various that it will be hard to touch upon them all. They are evident to all thinking people and no word of explanation from us is needed to make them clear.

The sanitarium will be owned by a stock company, the shares to be \$100 each. Every man in the county will have the privilege of taking stock in it, and it is hoped that the stock will be as well scattered as possible to insure interest on the part of all the people. It is especially to be hoped that every physician in the county will take stock in it, as they will have the privilege of having their patients treated at the institution.

A sanitarium at home will be a great saving to the people of this section in time, money, trouble and worry. Instead of taking loved ones to Savannah, Atlanta, or other cities, the patients can be treated at home and receive the same skilled service at a great reduction in expense. This, in itself, is important and is worth the serious consideration of every man, woman and child in the county. Illness is a thing that cannot be prevented, and it is just as well to reckon with that fact in a common sense sort of way. The best service, the greatest comfort, the least worry of body and mind, at the least expense, is the desideratum in cases of illness. All of these things, and more, a sanitarium will give to the people of this city and county.

A sanitarium will help to build up the town. It will keep at home the money that is now being spent at the hospitals in the cities by the sick and ailing of this county and section. Many people, who now carry their sick friends to the cities, for treatment, do so, not because they want to, but because they have to. People from all over the district would come here for treatment, and some from the cities would come here, for it is a well known fact that the pure atmosphere of the country is worth quite as much to the sick and afflicted as physio. This county is well known as a health resort. In fact a large hotel, to accommodate the tourists of the North and East, is one of the things that Statesboro needs, and will have, before many years roll by. It would be a paying investment from the very first.

Consumption and all other kindred diseases are unknown here. The county enjoys good drainage and the death rate is extremely low, not only in the county, but here in the city, where the population is more congested. This will be a great inducement for people to come here for treatment. As an investment not one could

be thought of that would pay better. It will require from \$15,000 to \$20,000 to build and equip a sanitarium after the modern method, and nothing but the latest in scientific equipment and appliances will be allowed. From \$10 to \$30 a week will be charged for treatment in the sanitarium. This places it in the reach of all classes. It is a well known and often demonstrated fact that sanitariums pay from fifty to one hundred percent on the capital invested. So, as an investment, the people need have no fear of losing money on the proposition.

The poor will be taken good care of in the institution. If there be any who are unable to pay for treatment, it will be given them free. All that is necessary is to find someone who will pay board and other incidental expenses. It is very probable that the county will equip and maintain a charity ward, where the indigent may be treated free of all expenses. There is no physician in the country, worthy of the name, who would refuse to treat the poorest person in the county, if they simply had the time. They have all the work that they can do, and they cannot afford to treat people when they know they are losing money and time, which is as valuable and more so. It is a business proposition, pure and simple.

Physicians from all parts of the country can bring their patients to the sanitarium here for treatment, if they desire to do so; it will be open to them at all times. About thirty patients can be taken care of at first, and, as the needs of the institution require it, it will be enlarged from time to time.

The moral advantage from such an institution cannot be too strongly stressed. Noble physicians all over the country are doing a great work for the suffering. Here they will be better prepared to minister unto the sick. It will be a pleasure and a duty to care for those who are unable to take care of themselves.

This is not the first time that a sanitarium has been spoken of for Statesboro. It has been agitated before, but in each instance the movement came to naught, on account of some lukewarmness on the part of those who should have been most instrumental in working for it. We have good reason to think that it will now be built. One of the most distinguished physicians in the state is behind the movement. He generally does what he sets out to accomplish. Everybody work for the sanitarium, and we will land it.

Tyson Grove Academy.
There will be a box spring given at the Tyson Grove academy, Friday, Feb. 1, 1907, beginning at 6:30 o'clock, p. m., for the purpose of supplementing the library of said school, etc. The public invited to attend.

Statesboro, Ga., Jan. 24, 1907.
J. M. Blackley,
J. S. Brannen,
Teachers.

Real Estate Deal.
Dr. A. J. Mooney has purchased from C. B. Griner the Sasser House and a lot on North Main street, the consideration being \$1,100. The house will be moved or torn down and the property improved. The land is situated in front of the Brooks House and faces North Main street on one side and Hill street on the other. It is very valuable either for a residence lot or for a store and for one of these it will likely be used.

Doings In The Local Field

WHEN YOU THINK OF HARDWARE, THINK OF RAINES.

Mrs. Howell Cone has returned from Augusta where she was the guest last week for a few days of her old college mate, Mrs. C. G. Arnett.

We have a special sale all the time. The Great Majestic sells itself. Jones & Kennedy.

WANTED—Five hundred cords of wood.
Bulloch Oil Mill.

Miss Carrie Dawson, who is teaching at Metter, came down and spent the week-end with friends here.

I have for sale at lowest prices: Plaster lathes, "Acme" plaster, Portland cement, plaster paris, etc.
A. J. Franklin.

Col. Remer Proctor is enjoying a visit from his little son, Master Remer Proctor, Jr.

The school near the home of Mr. J. S. Newsome, it is reported, is progressing nicely under the careful management of Miss Mary Emmitt. This school is out of a school district and is supported of a private means, but the prospects are bright for it to continue to be a successful term. There are thirty-one pupils in attendance.

When inspecting ranges don't forget that we sell the great Majestic, known as the best range in the world. Jones & Kennedy.

Miss Della Wilson was the charming hostess at an informal reception to a few friends Friday evening.

If you want the best cheap roofing on the market buy "Flexo" from A. J. Franklin.

Dr. A. L. R. Avant, of Savannah, one of the most prominent physicians in the state has been in the city for a few days. He is agreeably surprised at the great boom which Statesboro is enjoying at this time and notes many improvements since he lived here last.

Messrs. R. M. Williams, and Perry Rountree, of Metter, spent Sunday here.

We are paying \$18 for seed—both kinds. Bulloch Oil Mill.

Mrs. W. M. Oliver, of Valdosta, arrived in the city Friday and will spend some time visiting her parents, Mr. and Mrs. W. W. Williams.

It will pay you to see the Great Majestic before buying a range. Jones & Kennedy.

Mrs. Guy Trapani, of Savannah, is visiting her parents, Mr. and Mrs. J. W. Rountree, this week.

Anything in the way of paint material you can get from me if you will give me time to have it made in case I haven't it in stock.
A. J. Franklin.

After spending some time with friends at Adrian, Dublin, Sandersville and Tonnille, Miss Jennie Dawson has returned home.

We are paying \$18 for seed—both kinds. Bulloch Oil Mill.

Mr. M. J. Bowen, of Metter, was one of the prominent visitors to the city on Friday.

Mr. J. C. Crumley, of Brooklet, was here Friday.

To the farmers of this section we offer an exchange of 1 ton of high grade fertilizer for a ton of either sea island or upland seed, delivered at our mill.

Bulloch Oil Mill.

Dr. A. L. R. Avant, of Savannah filled the pulpit at the Primitive church Sunday night. He has many friends here who are always glad to see him.

NOTICE.

Now is the time to buy your fertilizers, and to get the best write me, at Statesboro, for prices. I am agent for Armour's most popular brands, and being made by the greatest slaughter house in the country, you are bound to get guano made up of pure animal matter such as Tankage Blood and Bone. Others make this claim, but when tested by the commissioner of agriculture are found neither of the above ingredients. Special prices to farmers clubbing together.
S. H. Liechtenstein.

Good Show Coming
On Monday and Tuesday, February the 4, and 5th, the Charles King Comedy Company will appear at the opera house. This company was here last fall and played to a packed house at each performance and no words of ours are needed to tell the people of Statesboro what a treat is in store for them. This is one of the best companies on the road. They give a good, clean show and one well worth the time of any one. Mr. Charles King will be seen in the role of Monte Cristo, Dumas' masterpiece. This will be the attraction for Monday night.

Tuesday they will select from their large and varied repertoire some other popular play. Mr. King was seen here last fall and his acting in Rip Van Winkle won for him unstinted praise and applause. He is supported by a strong company.

Met and Organized
Another Bank.

The people around Metter are prosperous. They believe in doing things. That community is one of the best in the county. That section is so prosperous that another bank is needed to take care of the money of the people and to satisfy this need for more and better banking facilities the people of that town together with a number of their staunch friends who enjoy the distinction of being the most successful and influential farmers and business men in the county met Saturday and made arrangements for another bank. The stock has already been raised. The capital will be \$25,000. At a later meeting some important details will be perfected. The meeting held Saturday was merely a temporary one to see if the stock could be subscribed. More convincing proof of the growth and prosperity of Metter and her good people than the one before is not needed. Metter will yet be one of the most enterprising of the South Georgia towns. It is supported by one of the best farming sections in the county. Its citizenship for public spiritedness and thrift and energy cannot be surpassed by any in the whole state. We are glad to see this evidence of prosperity on the part of Metter. It speaks of better things to come.

The following officers were elected: President, Joe Bird; Directors, B. Parish, A. J. Bird, W. D. Woods, W. E. Jones, R. M. Williams, Josiah Bird, G. T. Kingery. At a meeting to be held this afternoon a vice-president and cashier for the new bank will be elected.

The bank will be called the Citizens Bank.

Formal application for charter will be made within the next few days. The stock will be paid in as rapidly as possible and it is expected that the total capital of \$25,000 will be paid in before very long.

The officers of the bank are all good men and the bank should prosper from the very first and it no doubt will do so.

At Snap School.
Meeting called to order by making Rev. J. J. Miller chairman and Jere Howard secretary, and it was hard to understand the object of the meeting, but eventually decided it was for the purpose of harmonizing on one of two teachers in question.

At a meeting previously held there appeared to be no probability of getting a school, and Miss Stella Wilson was proposed and unanimously chosen for a teacher by the patrons present.

After remarks and suggestions by a few, and a glowing speech characteristic of Col. J. M. Murphy, on the beauties and power of harmony and unity; it was decided

that Miss Wilson teach the present, and Mr. A. D. Williams the fall term.

Two other trustees were elected for the present scholastic year, Col. J. M. Murphy and Mr. Ben Mooney, and other matters connected with the school transacted, with the express understanding and special request that Miss Wilson continue the present term and Mr. A. D. Williams teach the fall term.

Secretary.

Messrs. S. L. Moore and B. B. Sorrier went up to Metter Friday night.

SLAUGHTER!

STATESBORO, GA., FRIDAY, FEBRUARY 1, 1907

VOL 6 NO 48

SHOT HIS WIFE AND HIS BABY.

After Blowing Off the Side of
His Wife's Head With a
Shotgun Liles Turned the
Other Barrel Upon His
Four-Months-Old Child.

Waycross, Ga., Jan. 30.—The most horrible crime this section has ever had to record was the killing tonight of Mrs. Liles and the probably fatal shooting of her 4-months-old baby by her husband, H. E. Liles. The shooting occurred just after dark at the Liles place on Eads street, in the center of the residence section of the city. There were no eyewitnesses to the killing, but the evidence before the coroner's jury tonight, was to the effect that Liles placed a double-barrelled shotgun to the left side of his wife's forehead and pulled the trigger. Mrs. Liles had her babe in her arms at the time, and as she fell, the babe was dropped. The second barrel of the gun Liles fired into the baby as it lay on the floor, tearing its left arm off.

Liles is proprietor of a barber shop here, and according to the evidence of another family that occupies part of the house in which he resides, has often beaten his wife during the past few weeks and more than once has threatened to kill her and the baby.

This morning Liles came home drunk and locked his wife up in a room, telling her that neither she nor the baby would leave the house alive. Shortly after he went to sleep, when Mrs. Liles escaped with her baby, going to the home of her uncle, Mr. Henry Arrington, on Jane street. She told him that her husband had threatened to kill her, but later in the day Mr. Arrington thought he had settled the trouble by Mr. Liles promising to agree to allow his wife to go to her former home near Moultrie.

Late this evening Mrs. Liles walked with her husband up town. He stopped in a restaurant, and secured his shot gun, and the two returned home together. It was immediately after they entered the front porch of their home that the shooting occurred.

When officers arrived, Mrs. Liles was lying on the porch with the side of her head blown away and the baby was on the floor nearby, with its arm shot off. The powder had blackened the wound of Mrs. Liles' and her hat was set on fire.

Liles was standing near his wife's body when arrested, and did not seem to be very much worried over the matter. He said that he dropped his gun and that the shooting was an accident. He was not drunk when arrested, but seemed to be recovering from his debauch of this morning.

The coroner's jury is in session, but up to late hour no verdict had been returned.

Mrs. Liles was a daughter of a Mr. Johnston, who resides near Moultrie, and was a granddaughter

of Mr. Thomas Redding, a prominent man of that section. She was a young woman, almost a girl, and neighbors say had been a very good wife.

It is stated tonight that Liles recently has been a habitual drinker of "juice," a substitute for whiskey which is sold here, and was drunk on that occasion today.

Liles is well known here where he lived for some time a year or two ago. He worked here in the barber shop of Pete Sutton about two years ago and while here married the thirteen-year-old daughter of Mrs. Hearn who, at that time was running a boarding house on West Main street. It was a runaway marriage. They later went to Savannah where he took all the clothes of his wife and mother and sold them to pay for his drink bill. Since that time he has not been heard of in Statesboro until news of the horrible killing reached here.

He married thirteen year old Lula Hearn, an unusually beautiful girl. There was parental objection to the marriage and the couple ran away and were married.

Congratulations.
We gladly congratulate the Deen Realty and Improvement Company on their full-page advertisement in the Savannah Morning News yesterday. The ad was one of the best seen by us in a long time.

It is a good advertisement for the company and a better advertisement for the town and county.

Nothing was overestimated, but the truth was told in every line on the page.

The company failed to mention the new railroad that is soon to be built—the Savannah, Augusta and Northern—but that is excusable, as they probably did not know the conditions as they are.

This company is doing more for Statesboro than has ever been done by the city itself, or by any other company. They deserve the praise and commendation of the people of the whole town and county for the way in which they are spending their money to make of the sale the most successful one that they have ever conducted.

Again, we congratulate them for their fine method of doing business. The ad was all that could have been expected of it. We hope that the sales will meet with the success that they merit, and we know that they will.

He Came In Drunk.
The poor fellow was tanked up on mean liquor when he got to town, and in going down some stairs in an office, he fell and hurt himself badly. His brain was addled, and his body was paralyzed with the dirty stuff. He was not fit to attend to his business, and he was in people's way, and no doubt when he got home his wife and children were sorry for him and pitied him. So does everybody pity the poor drunkard. Why will men persist in wrecking their health, bodies and minds with the terrible poison? It always kills.

TO HOLD MEETING.

Interesting Meeting of Sea
Island Growers to Be Held
Monday—A Full Meeting
Is Urged.

The second monthly meeting of the Cotton Growers' Association of Bulloch county will be held here Monday at which time many important matters come up for discussion. It is urged by the president that all the members of this association be present on that day. All of the people in the county are invited to attend the meeting as something of interest will be done and even if one is not a farmer he will get a great deal out of the meeting.

Now is the time for the farmers to come together and see what is going to be done to reduce the acreage of cotton this year. In a few weeks that crop will have been planted and then it will be too late to talk of reduced acreage. This is the time when much good can be done if the farmers will come together and discuss the acreage problem and all other kindred subjects of interest to growers of cotton. The people are in a position to benefit themselves very materially in this direction just at the present time but now is the time that it must be done and if they delay a few weeks longer it will be too late to talk of reduced acreage or of controlling the cotton market and prices for that staple.

The million dollar cotton company has recently been organized and it is now up to the people to say what they want to do about regulating prices. At the meeting Monday steps will be taken to raise a fund to buy up the floating cotton in this county. You have or should have a voice in this matter. It is just as important to you as to any one else.

The meeting that was held some time ago was more or less of a tentative one and at the meeting Monday an organization more perfect in scope and detail will be made. The officers, of course, have been chosen but other matters of the very greatest importance to the farmers of the county are to be met with and discussed in a commonsense sort of way. It is the opinion of nearly all farmers that too much is paid for the picking of cotton in the fall when each man is anxious to get out a bale before his neighbor and will offer more for the picking of cotton than it is really worth. This matter must be looked into and some remedy for that peculiar evil found. This alone is worth the time and attention of every sea island grower in the county and if nothing else was done at the meeting Monday than to discuss this subject the meeting would well be worth the while of every man in the county to attend and take part in the discussion.

There is positive danger in the farmers of this county being allured by the prosperity of the present season brought on by the high prices paid for sea island cotton into planting too much of that variety of cotton this season. Reduce the acreage is the only wise thing to do and if you will attend this meeting Monday it will be shown to you where it is to your advantage to reduce the acreage of the cotton crop.

The meeting will be held in the courthouse. It is called at the suggestion of the president of the cotton growers of this county, Mr. W. H. Cone.

SANITARIUM NOW ASSURED

A Little More Work is All
That is Needed—Meet-
ing to Be Held
Next Week.

The sanitarium is now practically assured. There is some work to be done yet, however, and it is as well to keep this in mind. The people all over the county have evinced the greatest interest in the sanitarium from the first, and it is being talked from one end of the county to the other.

A meeting will be called some day next week, at which time officers and directors and a building committee will be elected to take up the work and carry it to a successful end. In the meantime it is important that you talk this matter over with your neighbor, and come next week prepared to offer valuable suggestions and advice.

Statesboro cannot afford to have any but the very best and a first-class sanitarium will cost about \$20,000 or \$25,000. This stock must be taken by the people. It will be their institution, erected for their express benefit, and they should not hesitate to take as much of the stock as they feel able to carry. It will pay handsomely as an investment.

The most prominent people here are behind the movement. They are willing to do their part. Are you willing to do yours? If so, the institution will be erected within the next few weeks. Work for it; talk it; don't let interest in it lag, and the sanitarium will be ours within a very short time.

Statesboro Loan and Trust Co. Organized.

The Statesboro Loan and Trust Company was organized here this week, and application for charter has been made. Mr. J. G. Blitch heads the company, as president, and Mr. C. W. Brannen is secretary and treasurer.

The organization of this company shows the business of the town to be on a sound footing. Some of the most prominent people of the city are interested in it. An able set of directors were chosen and the company will be well looked after.

This is the second company of its kind to be organized here, the Statesboro Builders' and Loan Association having been formed some time ago. The field for such a company is large, and no doubt a good business will be done from the first.

Bulloch's School Fund.

State School Commissioner Merritt has completed the apportionment of the school fund for this year.

Bulloch county gets \$17,656.87, which is a good showing. This comes eleven in the money received from the state for schools. It is ahead of 136 counties in the state. Year after year the county is coming to the front, and it will not be long, at the present rate of growth, until we will get as much money from the state for schools as any other county in Georgia.

This year each pupil of school age will receive \$2.53, which is just 12 cents more than was received last year, and the highest amount ever paid per pupil in this state. We have good cause to feel proud of the fine showing that our county is making in the matter of schools. Not a better school system in the state exists than ours. Not a better commissioner, nor one who knows how to get results, could be found anywhere.

Let the old year and
the spending habit die
together.
Begin the New Year
by saving a part of your
earnings, and deposit
them with the

Sea Island Bank.
We Will Appreciate Your Business.

**Much Impressed With
Our City and County.**

Mr. F. J. Coolidge, the millionaire paint and glass dealer, of Atlanta, has been in the city several days. He has been the guest of Messrs. C. M. Cumming, W. D. Davis, E. M. Anderson and Dr. J. E. Donehue, who have shown him the city and surrounding country. They have also taken him on several hunting expeditions in the vicinity.

Mr. Coolidge is highly impressed with Statesboro and Bulloch county. He says that this city and surrounding country will compare favorably with any section he has ever seen. He has not positively stated that he intends to move here in the immediate future, but from the manner of his expressions he might consider the proposition some at a future date.

He believes, like others of us, that Statesboro is destined to be a good sized city at no far distant date.

Mr. Coolidge will return to Atlanta Sunday.

Speaking of Statesboro and Bulloch county, reminds us of what Gov. Terrell stated to us on

Monday. He said:

"Go where you will and you will hear the praises of this city and county sung without stint. The people seem to acknowledge, in every nook and corner of the state, and even beyond its borders, that this is the garden spot of the state."

Gov. Terrell had never visited this favored city and county before, and so much was he impressed that he expressed a deep regret that his appointments had been fixed so that he was compelled to leave as after only one day's stay. He says he will come again soon.

Trim Up the Trees.
If the street committee or some body will hear the trees on the streets trimmed up now it will help the trees and the looks of the town. Trees are pretty if they are looked after, and the limbs sawed off, and the trees allowed to grow properly, otherwise they are an eyesore. We trust some body will look after the matter. The town is paying out a lot of salaries to its officers, and they expect something in return.

WANTED—A few more boarders; house located in the center of city.
Mrs. M. J. Kinard.

Enjoy the Good Things.
Get all the happiness you can out of life. Worry and happiness cannot live together. Learn how to be thrifty, how to spend your money to better advantage, so that you will have some of it left over—then save this—open an account with us and you will soon have enough to free you from all financial worries.
